EDUCATION

TELKOM UNIVERSITY
INFORMATICS UNDERGRADUATE
GPA: 3.56/4.00

September 2023 - April 2027
Bandung, West Java

EXPERIENCE

PMK TELKOM UNIVERSITY | COMMITTEE LOGISTICS DIVISION Bandung, West Java | November 2024 – December 2024

1. Organized and prepared logistical aspects for the Christmas celebration, including material procurement and event setup.
2. Became deputy chair of the logistics division in the Christmas committee
3. Contributed to achieving financial goals that supported the overall success of the celebration.

HELLO WORLD TELKOM UNIVERSITY | COMMITTEE LOGISTICS DIVISION Bandung, West Java | June 2024 – September 2024

1. Coordinated logistics needs, ensuring the smooth execution of events by managing supplies and consumption
2. Collaborated with team members to ensure timely delivery and efficient allocation of resources.
3. Assisted in troubleshooting logistical challenges during the event.

HUMIC ENGINEERING RESEARCH | DATA SCIENTIST Bandung, West Java | May 2026 – July 2026

- Conducted a Systematic Literature Review (SLR) on Tourism Route Recommendation Systems based on optimization algorithms, screening 135 papers and accepting 67 via Parsifal platform.
- Performed structured data extraction covering algorithm, dataset, constraint, objective function, and evaluation metrics across 67 accepted papers.
- Developed research taxonomy using Whimsical covering 9 dimensions: Objective, Methodology, Advantages, Disadvantages, Model, Metric, Contribution, Future Work, and Dataset.
- Built a multi-day tourist itinerary recommendation system for Jakarta using Content-Based Filtering, K-Means Clustering, and hybrid GWO-TS optimization based on the Massive-STEPS Jakarta dataset.
- Deployed the end-to-end prototype as a web application, evaluated using fitness value, running time, and convergence metrics.

SKILLS

PROGRAMMING LANGUAGES	Python, PHP, Javascript
LIBRARIES/Frameworks	Vue, Laravel, Tailwind, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
TOOLS / PLATFORMS	Git, GitHub, VS Code, Jupyter Notebook
DATABASES	MySQL

PROJECTS / OPEN-SOURCE

BLUKIOS - MULTI-VENDOR MARKETPLACE PLATFORM | LINK Laravel, Vue.js, PHP, Python, MySQL, MongoDB

Developed a multi-vendor marketplace platform centered on a robust Laravel Monolith, extended with a dedicated Python Service for AI features.

INSURANCE-COST-PREDICTION | [LINK](#)

Jupyter Notebook, Python, NumPy, Matplotlib, Pandas

Predicting medical insurance costs using Linear Regression optimized from scratch with Genetic Algorithm (GA).

PUBLIC COMPLAINT INFORMATION SYSTEM | [LINK](#)

Laravel, PHP, Bootstrap, MySQL

Developed "SIPEMAS" as the capstone project for an intensive 36-hour Web Development Workshop. This application serves as a digital platform for public complaints and aspirations, built from scratch using Laravel 11.

AMES HOUSE PRICE PREDICTION | [LINK](#)

Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Jupyter Notebook

Built a machine learning regression model to predict residential house sale prices using the Ames Housing Dataset, which contains 79 explanatory variables describing various aspects of homes in Ames, Iowa. Performed exploratory data analysis (EDA), data cleaning, and feature engineering to prepare the dataset. Applied and compared multiple regression techniques including Linear Regression, Ridge, Lasso, and Elastic Net to identify the best-performing model. Evaluated model performance using RMSE and R metrics.

CREDIT RISK PREDICTION | [LINK](#)

Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Jupyter Notebook

This project aims to develop a machine learning model capable of predicting the credit risk of prospective borrowers and classifying them into either the Good Debt category (likely to repay the loan) or the Bad Debt category (likely to default).

CERTIFICATIONS

- Learn the Basics of Git with GitHub - **DICODING**
- Getting Started with Python Programming - **DICODING**
- Web Programming Laravel - **ID NETWORKERS**
- Prompt Engineering for Software Developers - **DICODING**
- R (Basic) - **HACKERRANK**
- R (Intermediate) - **HACKERRANK**
- SQL (Basic) - **HACKERRANK**
- SQL (Intermediate) - **HACKERRANK**
- Go Programming Language (Basic) - **HACKERRANK**
- Data Science Essentials With Python - **CISCO**
- Certificate of Achievement - ID/X Partners Data Scientist Project Based Internship Program - **ID/X PARTNERS**

HONORS & AWARDS

- Achieving 9th Position in the Hackathon: Retail Crisis & Recovery Visualization Challenge using Python
